

The cross-ownership rules must be kept in place! It is vital for Americans to receive a diversity of viewpoints within a local media market. Please don't allow the large media companies to continue the current disturbing trend of conglomeration. If these laws are removed, the "voice" heard by Americans in the mass media will eventually be controlled by only a handful of monolithic companies. I ask that the FCC does not bend to these companies' pressure to allow their expansion. Please keep these important safeguards in place. Thanks.
